

AKSHARA COSULTANCY

Compliance Solutions for Modern Businesses

A comprehensive business consultancy delivering legal, compliance, and taxation services with speed, accuracy, and affordability. We empower startups and small businesses to navigate complex regulatory requirements with confidence. We also support existing businesses in achieving sustainable growth.

Who We Are

Legal Expertise

Comprehensive legal and compliance services for businesses of all sizes

Taxation Services

Expert guidance on income tax, GST, and all taxation matters

Business Support

End-to-end compliance solutions from incorporation to ongoing operations

Akshara consultancy brings together experienced professionals from taxation, legal, and compliance fields. We understand the unique challenges faced by startups and small businesses in managing regulatory requirements. Our mission is to provide accessible, technology-driven services that allow entrepreneurs to focus on growing their businesses whilst we handle the complex compliance landscape.

Comprehensive Services Portfolio

GST Filing

Complete GST registration, return filing, and compliance management for seamless tax operations

Income Tax Services

ITR filing, tax planning, and advisory services to optimize your tax position legally

Company Incorporation

LLP, Private Limited, and One Person Company registration with complete documentation

ROC Compliance

Annual filing, event-based compliances, and ongoing ROC requirements management

MSME Registration

Government registration benefits and compliance for small and medium enterprises

Trademark Registration

Brand protection and intellectual property rights registration across classes

Additional Compliance Services

FSSAI License

Food safety and standards authority registration for food business operators

Shop & Establishment

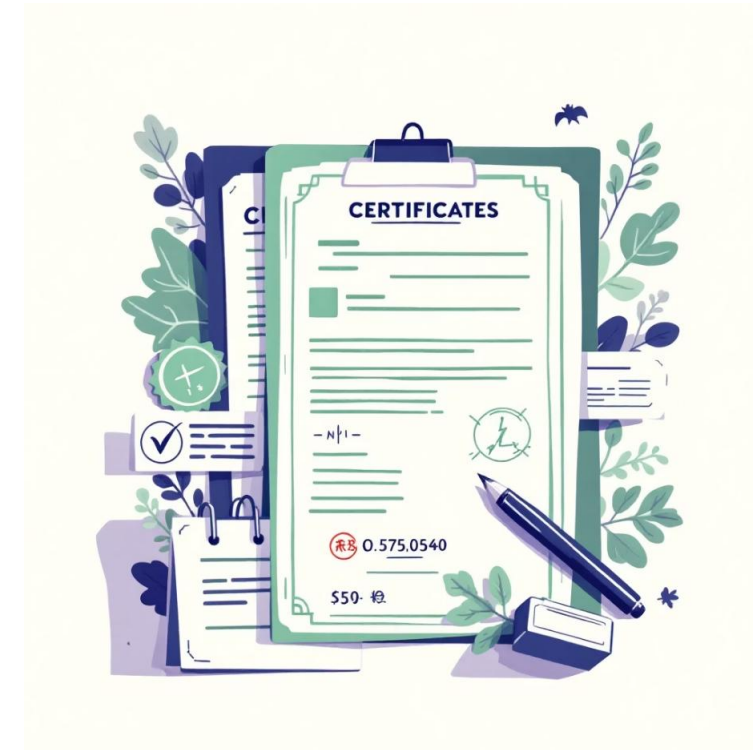

State-specific registration for commercial establishments and retail businesses

Professional Licenses

Industry-specific permits and certifications for various business activities

Other Registrations

Covers additional registrations apart from core services, including ESIC, EPF and other regulatory requirements.

Our comprehensive service portfolio ensures that all your business compliance needs are met under one roof. From initial business setup to ongoing operational compliance, we provide end-to-end support that grows with your business.

Meet Our Expert Team

Legal Professionals

Providing end-to-end legal advisory and documentation support to help businesses operate efficiently within the regulatory framework.

Our dedicated core team brings together professionals from taxation, legal, and compliance backgrounds. Each team member has years of industry experience working with startups, SMEs, and growing enterprises. We focus on providing accurate, reliable, and client-focused solutions that address your specific business needs whilst ensuring complete regulatory compliance.

Why Choose Our Services

One-Stop Solution

Access all business compliance services in a single platform. No need to coordinate with multiple vendors or service providers.

Affordable Pricing

Competitive rates designed for startups and small businesses. Transparent pricing with no hidden costs or surprises.

Fast & Hassle-Free

Streamlined processes and digital documentation ensure quick turnaround times without the traditional paperwork burden.

Expert Guidance

Seasoned professionals provide strategic advice and proactive solutions to complex compliance challenges.

Personalized Support

Dedicated relationship managers who understand your business and provide customized compliance strategies.

Our Mission & Vision

Mission

To provide affordable, quick, and technology-driven professional services that support startups and businesses in managing their compliance efficiently. We aim to democratize access to quality legal and taxation services, removing barriers for entrepreneurs.

Vision

Be the most trusted compliance partner for startups and small businesses across the country. We envision a future where regulatory compliance is simple, accessible, and empowering for all entrepreneurs.

Our commitment extends beyond mere compliance. We strive to be strategic partners in your business journey, providing proactive guidance that helps you avoid issues before they arise and seize opportunities for optimization.

Who We Serve

Startups

Early-stage companies navigating incorporation, funding, and initial compliance requirements

Small Businesses

Established SMEs managing ongoing compliance and scaling operations

Entrepreneurs

Individual founders launching new ventures and need expert guidance

Growing Companies

Expanding businesses requiring sophisticated compliance and tax strategies

Whether you're just starting your entrepreneurial journey or scaling an established business, our services are designed to grow with you. We understand the unique compliance challenges at each stage of business development.

Our Process

Initial Consultation

Free consultation to understand your specific requirements and compliance needs

Documentation

Simple, digital-first documentation process with minimal paperwork

Execution

Expert team handles all filings and registrations efficiently

Delivery

Complete compliance documentation delivered with ongoing support

Our streamlined process eliminates the traditional hassles of compliance management. Through digital documentation and expert execution, we ensure that your compliance matters are handled quickly and accurately, allowing you to focus on your core business activities.
