

Introduction - Sur Inc.

Established with a single objective to provide complete structural framing solutions to the customers, Sur Inc. has been serving Metal Framing Industry. Sur Inc. is an ISO 9001:2015 certified company.

Sur Inc. are committed to manufacturing and exporting high-quality products including Strut Channels, Spring Channel Nuts, Channel Brackets, Pipe Clamps, Hanger Clamps, Beam Clamps, Channel Base Plates, Cantilever Arms, and Channel Accessories, ensuring complete customer satisfaction through consistent quality, reliability, and performance.

Strut Channel Applications / Uses

Strut channels are widely used in construction, industrial, electrical, and mechanical projects to provide strong and reliable support for various installations. They are commonly used for mounting cable trays, electrical conduits, HVAC ducting, pipe support systems, solar panel structures, lighting fixtures, suspended ceilings, and industrial machinery. Strut channels are also ideal for creating equipment frames, shelving systems, warehouse storage racks, and support structures in commercial buildings, factories, power plants, oil & gas facilities, and infrastructure projects. Their modular design allows quick

installation, easy adjustment, and future modifications without welding, making them a cost-effective and durable solution for a wide range of structural support applications.
